October 9th, 2015

Introduction

With the release of version 9.1, Netop continues to expand the range of supported languages for selected platforms.

As a minor product update, version 9.1 is available for download to customers subscribing to the Netop Advantage Program. Vision 9.0 Licenses will work with Vision 9.1, If you have questions about your license or wish to purchase an upgrade, please contact [Netop Customer Service](#) or your local [Netop Partner](#) for more information.

Windows Teacher & Student

Vision 9.1 will be released to support the following 2 new languages:

- Arabic
- Brazilian Portuguese

This will complement the variety of already supported languages: English, German, French, Italian, Dutch, Swedish, Finnish, Russian, Czech and Japanese.

Mac Teacher

Vision 9.1 will be released to support the following 3 new languages:

- French
- Spanish
- Dutch

This will complement the already supported languages: English and German.

Bug Fixes

Resolved an issue causing Windows to crash when using Demo with large cursors.
