Teaching with technology is easier and more effective with Netop Education Solutions

Netop Education Solutions

Helping educators achieve better results with technology

For more than twelve years Netop has worked with schools, colleges and corporate training centers around the world to achieve a vision of better educational results through technology. From the start, our focus has been on providing educational software solutions that empower the teaching process. It is our belief that through the appropriate use of technology, students can become more engaged in the subject matter, learn faster, and benefit from a higher retention rate.

THE CLASSROOM MANAGEMENT LEADER

Our core educational offerings are the Netop School6 and Netop Vision6 classroom management software product lines, which enable teachers and trainers to engage and guide student learning on computers. In school computer labs, classrooms, corporate training centers and on college campuses around the world, Netop's classroom management software solutions make teaching easier, learning more enjoyable, and produce measurable and significant improvements in student achievement. That's why Netop has become the world leader in classroom management software.

At Netop, we believe every teacher should have access to 21st century tools to manage their classrooms. In 2009, we introduced Netop MyVision, the classroom management software every teacher can afford - we even have a free version.

NETOP EDUCATION SOFTWARE FAMILY

Netop also offers a wide range of tools and solutions for school IT administrators, including ProtectOn Pro hard disk protection, PrintLimit Pro print management software and Remote Control remote management and support software. Netop's educational discount program means schools can save significantly when purchasing Netop products.

COMMITTED TO THE FUTURE OF EDUCATION

We are constantly making improvements to our existing products and developing new solutions to address the changing needs of teachers and administrators in the schools of today and tomorrow. Our goal is to ensure that Netop products help educators deliver the highest quality of education possible to their students. Our education software solutions team wants your input. Let us know how we can better meet your educational needs.

The Netop
Commitment

You get a partner, not just an invoice
When you purchase from Netop, you are getting a partner in educational technology. We design our education products to meet the unique needs of educators.

A real voice on the phone
We assign every school a service representative. Your service rep will call you to make sure your implementation of Netop software goes as planned and resolve any issues you may have. We always do our very best to make sure your questions are answered and your needs have been met.

Software that actually makes it out of the box
Our products are designed to make teaching with technology easier for educators. We want you to have the tools you need to get the most value out of our solutions.

Our experts are at your service
We provide top quality technical support for your school's IT and teaching staff. Our tech support team is trained specifically to deal with the unique issues of school and classroom infrastructures. Technical support for our U.S. customers is provided by phone and e-mail every school day.

Inside

NETOP™
School6™
Classroom Management Software

Prepare for class, teach your students and evaluate their work with Netop School6, the premier classroom management solution for today's networked classrooms and computer labs. Only Netop School6 offers a complete, feature-rich set of tools in an intuitive interface that is fully customizable to streamline your teaching process.

NOW COMPATIBLE WITH **Windows 7**

KEY FEATURES

- **Present lessons dynamically**
- **Supervise student computing**
- **Prepare lessons at home**
- **Control Internet and applications**
- **Promote collaborative learning**
- **Evaluate and reinforce progress**

"From a teacher's point of view, this software is very easy to use. It is so intuitive that everyone catches on quickly. Netop School thinks like a teacher."

STEVE WEST - ASHEVILLE MIDDLE SCHOOL

New "ribbon" toolbar streamlines teaching, puts rich feature set at your fingertips.

Teacher's Computer

Student Computer Screens

Share your screen with the class, supervise student computer work, lend a hand when needed, control application and Internet use, distribute and collect documents, create tests and evaluate student progress.

Download a FREE 30-Day Demo at our Web Site

The 360° Solution for Teaching

Netop School6 is the all-in-one solution that increases teacher efficiency and flexibility while improving the quality of lessons, increasing control, keeping students on task and ultimately increasing student performance and grades.

Present lessons dynamically

- Demonstrate on student computers
- Broadcast multimedia
- Play recorded lessons
- Replace costly AV equipment

Guide student learning

- Observe student computers
- Take control remotely
- Chat with students

Promote collaborative learning

- Pass the chalk
- Interactive group chat
- Many-to-many audio
- Student-led workgroups

Prepare lessons at home

- Lesson planning streamlines teaching
- Record demonstrations in advance
- USB export lets you prepare anywhere

Control Internet access & applications

- Limit Web surfing
- Control application use
- Block ports used for IM and chat
- Combine policies on the fly

Focus attention, improve efficiency

- Blank screens, lock keyboards and mice
- Launch files & applications
- Distribute & collect documents
- Wake or shut down computers remotely

Evaluate student progress

- Wizard helps design tests and surveys
- Drag-and-drop test administration
- Real-time evaluation and grading

Intuitive, customizable interface

- Revolutionary "ribbon" design
- Favorites menu
- Customize to meet individual needs

NETOP™
Vision®6
Classroom Management Software

Vision is the #1 choice of teachers for managing student computer activity. Vision gives teachers complete control over classroom computers from an easy-to-use console that shows each student screen. Monitor student progress, keep an eye on Web browsing, share screens, and lock the keyboards and mice during lessons to focus student attention.
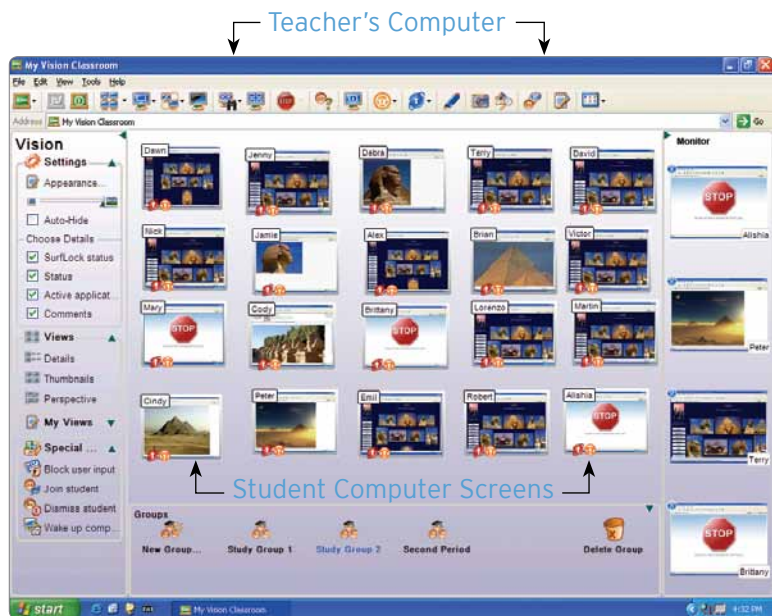

NOW COMPATIBLE WITH **Windows 7**

KEY FEATURES

- Guide student learning on computers
- Monitor Web browsing to keep students on task
- Engage students by sharing screens
- Supervise student computers
- Remote control of classroom machines
- Blank screens and lock computers
- Wake up or shut down student machines

"I have been a teacher for 23 years and have not found a tool that has made more of a profound difference in my classroom."
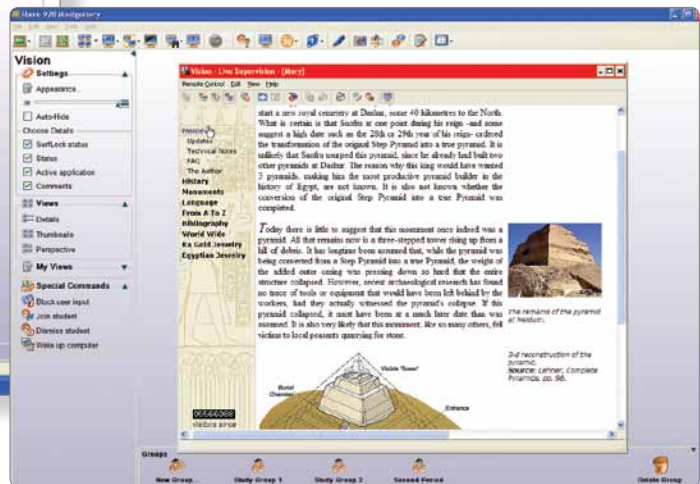

MARK RISENHOOVER
- ANDREWS HIGH SCHOOL

Winner 'Best Classroom Management Software' - BESSIE & EDDIE AWARDS

Supervise and interact with every student screen in your classroom. Share screens, monitor student progress, keep an eye on Web browsing and remotely control student machines.

Demonstrate the teacher's screen to all student screens in the classroom.

New advanced supervision allows you to view any student screen in large-view mode in real time.

Demonstrate
Show lessons from the teacher's screen to every student screen in the class.

Supervise
Monitor all student screens from the teacher's computer.

Live Supervision
View any student screen in high-quality large-screen mode in real time.

Remote control
Take control of any student computer to mentor them through a task.

Shut Down
Save time by remotely shutting down student computers at the end of class.

Virtual Teacher
Empower your students to show their great work on every screen in the class.

Blank Screens
Focus student attention at the beginning of class by blanking screens while locking the keyboards and mice.

Chat
Help individual students and answer questions without disturbing the rest of the class.

NETOP™
Vision®6 SURF·LOCK™
Internet Control Plug-In

Surf-Lock is the plug-in for Vision that gives teachers 'one-click' control of Internet access for their entire class. Lock Web surfing entirely or allow access to only teacher-selected sites. Turn browsing on and off from the teacher's computer or show a list of approved sites on every student screen.

**Now included FREE with every purchase of Netop Vision6**

KEY FEATURES

- Guide and control student Web surfing
- Turn browsing on or off from the teacher's computer
- Choose appropriate sites for student assignments
- Allow selected Web sites, lock out the rest
- Display approved Web sites on student screens
- Powerful controls work with all major browsers
- Incredibly easy to use, plugs in to Vision6

"Surf-Lock has really helped me keep my students on task!"

CINDY SMITH - RIVER ROAD ISD

Control when and where students are allowed to surf – instantly.

Surf-Lock automatically shows your list of teacher-selected Web sites on every student screen in the class.

When you save your favorite sites to the Surf-Lock folder in IE, you can direct your entire class to the sites that you choose.
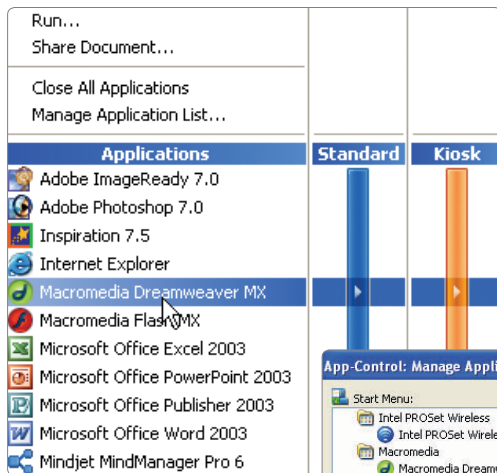

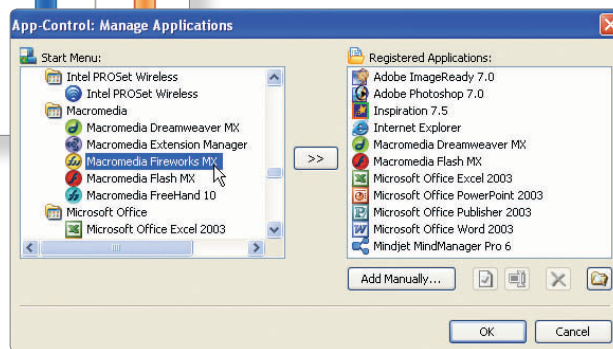

NETOP™
Vision®6 APP·CONTROL™
Application Control Plug-In

App-Control is the Vision plug-in that makes it easy to launch and lock applications on classroom computers. Save time and keep the whole class learning together by starting the correct application on every classroom computer at once. Assist individual students by launching applications and documents for them remotely.

Now included FREE with every purchase of Netop Vision6

Easily launch applications and lock them on all student computers.

Manage allowed applications in the classroom with a simple menu.

KEY FEATURES

- Keep the whole class learning together
- Remotely launch applications on student computers
- Open and share documents with the entire class at once
- Focus student computer activity with kiosk mode
- Lock students into applications for assignments or tests
- Remove distractions – no unwanted games or chat

"The hardest challenge for a computer teacher is to make sure a student is on task. App-Control removes the challenge. Excellent program!"

WILLIAM DUNN - MORTON HIGH SCHOOL

NETOP™
Vision6® TEACH·PAD™
Classroom Management Assistant

The Vision Teach-Pad is the only teacher tool available to schools that offers one-touch management of classroom machines. The five-button, USB keypad is the easiest way for any teacher to manage student computers. Lock student keyboards and mice, blank screens, or show a lesson from the teacher's computer to the entire class with the touch of a button.

KEY FEATURES

- Push-button control over classroom computers
- Supervise student computer activity
- Share teacher's screen with the entire class
- Blank student computer screens
- Remove distractions, lock keyboards and mice
- Control Web surfing during class
- Easy access to essential Vision6 features

"The new Teach-Pad has saved me so much time this year! I highly recommend the purchase."

KRISTEN J. LEDMAN - BARBERTON HIGH SCHOOL

Student Computers

Teacher's Computer

One-touch access to the most essential classroom management functions from the teacher's computer.

NETOP™
MyVision BASIC
Classroom Management Software

MyVision is the affordable entry-level classroom management solution that works on Macs as well as PCs. MyVision Basic provides four essential tools for teaching with computers, so any teacher can supervise student computer work, share engaging on-screen demonstrations, instantly get the attention of the entire class and control student Internet access. Available via low-cost online subscriptions, MyVision Basic is ideal for teachers with tight budget constraints.

• Lock keyboard & mice
• Demonstrate on-screen
• Supervise student work
• Lock Intenet access

MyVision is simple to set up for multiple classrooms

KEY FEATURES

• **Works on Macs as well as PCs**

• **See every student computer screen**

• **Block Web surfing instantly with one click**

• **Lock keyboards & mice during lectures**

• **Launch full-screen demos to the class**

• **Available via low-cost online subscription**

"Our small Indiana, rural, cash-strapped school corporation has been waiting for a product like yours. MyVision Basic is just what we need and at a price we can afford."

ROB EVANS - WEST CENTRAL SCHOOL CORPORATION

NETOP™
MyVision FREE
Classroom Management Software

Because we believe no teacher should lack the basic, most fundamental tool for teaching with computers: the ability to monitor student activity on computers. Netop is happy to offer MyVision Free. It's yours to keep and use, with no obligation and absolutely no cost. With MyVision Free, educators can supervise student computer use, monitor Web browsing, assess student progress and identify students who need extra help.

Solutions
For School IT Administrators

For more than twelve years Netop has worked closely with schools, colleges and universities to provide software solutions that meet the specialized needs of school IT administrators.

Our industry-leading solutions are designed with the needs of both educators and IT administrators in mind, so you get reliable software that is easy to install and support on typical school networks. School IT administrators appreciate our complete set of solutions for remote support, complete endpoint security and print management.

PROTECT SCHOOL COMPUTERS
Eliminate damage from viruses and unwanted downloads while protecting data and system integrity with Netop ProtectOn Pro, the affordable new endpoint protection solution. Ideal for schools, libraries and businesses, Netop ProtectOn Pro eliminates problems and saves countless hours of support time.

The affordable new solution for hard disk protection and device control

NETOP™
PrintLimit™ PRO
Print Management Software

PrintLimit Pro is the premier solution for controlling printing costs in complex multi-platform environments with a scalable, intuitive web interface and advanced budgeting and reporting tools. PrintLimit Pro's unique features help schools, universities and businesses promote responsible use of resources, recover printing expenses and dramatically reduce paper and toner budgets.
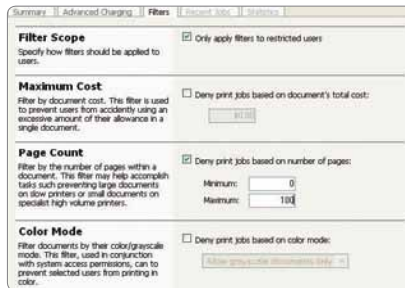

KEY FEATURES

- Enterprise-level print control - scalable up to 20,000+ users
- Limit, chargeback or log print jobs on a per-user basis
- Flexible implementation – silent monitoring, quota control or user pay
- Assign costs to group accounts or cost centers
- Chargeback printing to departments or issue fee-based cards

"Our heaviest-use printer on campus has printed a third less than on the same dates in the last academic year. We are thrilled."
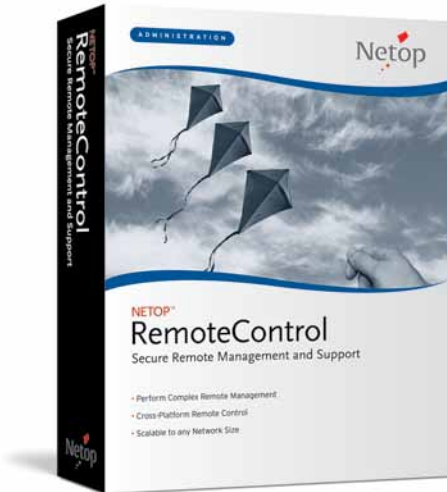

KEITH FOWLKES - ST. MARY'S COLLEGE

Technology & Learning Winner - AWARD OF EXCELLENCE

Monitor, restrict or analyze all student printing in your school or district.

NETOP™
RemoteControl
Secure Remote Management and Support

Netop Remote Control provides one intuitive interface for complex remote maintenance and user support across more platforms and devices than any other remote control product. Netop Remote Control features industry-leading encryption and the most comprehensive security system on the market. And when it comes to security, you are in charge: you decide who can delete files, upload new files, change system settings, etc. You can be confident your remote sessions and vital information are safe from unauthorized access.
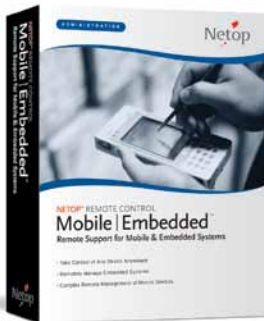

NETOP™ REMOTE CONTROL
OnDemand
Instant Web-based Remote Support

Support users when they need it with secure Web-based remote control regardless of location, network, firewalls or what computer the user is logged into.

NETOP™ REMOTE CONTROL
Mobile | Embedded™
Remote Support for Mobile & Embedded Systems

Remote control smart phones, PDAs, handheld terminals and embedded systems.

KEY FEATURES
- Take control of any computer
- Perform complex remote management
- Communicate to the user
- Stretch the limits of remote control
- Collect software and hardware information
- Easily connect with centralized phonebook

"The solution we needed was for a multiplatform environment that worked with diverse operating systems, some of which were quite old. We had looked into other products, however, Netop was simply a better product and it was clear that the Netop Remote Control product range had the security and functionality that we needed."
